EDUCATION

University of Pennsylvania — Philadelphia, PA
Fulbright Visiting Scholar in Computer Science — Aug. 2017 – May 2018

Technical University Dresden — Dresden, Germany
Diploma in Electrical Engineering, Focus: Robotics and Control; GPA: 4.0 (with distinction) — Aug. 2012 – Aug. 2017

EXPERIENCE

GRASP Lab, University of Pennsylvania — Philadelphia, PA
Fulbright Visiting Scholar, Supervisor: Kostas Daniilidis — Aug. 2017 - May 2018
- **Unsupervised Activity Recognition**: Learn a viewpoint-independent embedding that discriminates actions of birds in video data without human training annotations.
- **Coursework**: Take classes in deep learning for computer vision (instructor: Jianbo Shi) and reinforcement learning. Final projects investigate GANs for data augmentation and Generative Adverserial Imitation Learning.

Computer Vision Lab Dresden — Dresden, Germany
Diploma Thesis, Supervisor: Carsten Rother — Apr. 2017 - Aug. 2017
- **Object Pose Estimation**: Design, implement and test a pipeline for 6DoF pose estimation of objects from single RGB/RGB-D input images. Used dataset features texture-less objects and heavy occlusion.
- **Deep Learning**: Implement Deep CNNs in Caffe for instance-aware semantic segmentation and 3D shape reconstruction as part of the pose estimation pipeline.

Institute of Automotive Engineering Dresden — Dresden, Germany
Research Assistant — Apr. 2016 - Jan. 2017
- **Reinforcement Learning**: Develop a Reinforcement Learning algorithm for learning energy-optimal driving strategies for hybrid-electric vehicles. Implementation of linear value function approximation for improved learning speed and accuracy.

BMW Research and Technology — Munich, Germany
Research Intern — Oct. 2015 - Mar. 2016
- **Data Acquisition**: Develop tools for data acquisition and evaluation in ROS for learning-based techniques in the field of automated driving.
- **Maneuver Classification and Prediction**: Develop machine learning algorithms for the classification and prediction of vehicle lane change maneuvers using TensorFlow.

Technical University Dresden — Dresden, Germany
Teaching Assistant — Apr. 2014 - Mar. 2015
- **Algebra and Electrical Engineering**: Independently held two weekly exercises in undergraduate mathematics for engineers and lead the extra-tuition program in electrical engineering for undergraduate students.

SCHOLARSHIPS AND AWARDS

- **Fulbright Scholarship**: Awarded by the US government for academic excellence and social commitment. Aug. 2017
- **Year's Best Pre-Diploma**: Awarded by the Faculty of Electrical and Computer Engineering. Aug. 2014
- **Deutschlandstipendium**: National scholarship for outstanding academic achievements. Oct. 2013 - Sep. 2017
